Assembly Instructions

Addie Beam

⚠ WARNING

- Serious injury (including permanent paralysis or death) could result from any activity involving motion, rotation or height.
- All users of this equipment assume this risk of serious injury.
- Mats and pits cannot and do not eliminate hazards.

Safety Instructions

ALWAYS:

1. Consult an instructor prior to use.
2. Use equipment **ONLY** under the supervision of trained and equalified instructors.
3. Use equipment with trained spotters and the proper spotting equipment.
4. Check equipment before use for proper positioning; equipment can move during use.
5. Follow a progressive learning pattern. Assure basic skills are achieved before attempting more advanced skills.
6. Use equipment **ONLY** when all hard exposed surfaces are protected with proper mats.
7. Assure that all inflatable equipment has sufficient air pressure to avoid injury.

DO NOT use the apparatus with damaged, worn or missing parts.

DO NOT allow more than one person at a time to use the equipment.

Thank you for purchasing the Addie Beam.

After opening the box, please check the parts list to make sure all pieces have arrived in good condition. If you have any questions during this assembly process, please call Customer Service.

1. Flip the beam upside down and locate the two outside screw holes on each end of the beam. Place the feet on the beam, line up the screw holes with the countersunk holes facing up.

*the inner set of holes are intended for leg risers

2. Insert the bolt through the star washer. Place the bolts in the tapered holes connecting the feet to the beam.

3. Use the 6mm hex wrench and tighten bolts until the feet are tightly secured to the beam.

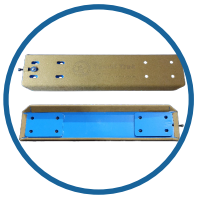

Recommended Accessories

Hopscotch Mat (3-ft x 12-ft)

- Useful dual-sided mat for practice and play
- Spans the length of the beam and more
- Hopscotch Squares on one side
- White line on other side for beam skills

Addie Beam Connector Bracket

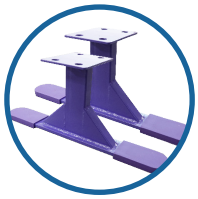

- Seamlessly connect (2) 8-ft Addie Beams
- Allows length needed for leap series or connected skills

Tumbling Mat (4-ft x 8-ft)

- Spans the length of the beam
- Provides softer surface under the beam

Addie Beam Leg Risers

- Raises the Addie Beam surface to 12-in off the floor
- Provides a stable, non-slip base
