

## Will Tumbl Trak Stall Bar Attachments fit my existing stall bars?

Tumbl Trak Stall Bar Attachments are designed to function perfectly with the Tumbl Trak stall bars.

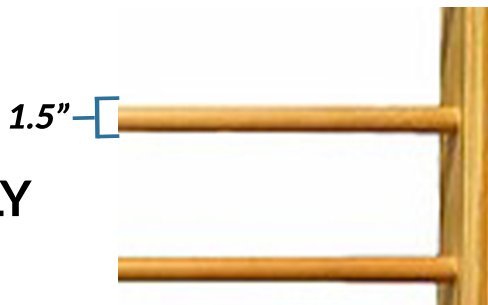

# HOW TO MEASURE

There are 2 measurement requirements:

Stall bars must measure **EXACTLY 8.5"** from center of one rung to center of the next rung.

Each rung of the stall bars must measure **EXACTLY 1.5"** diameter.

Any variation in these measurements will result in the Tumbl Trak Attachments not fitting perfectly.

Please measure carefully and consult our customer service department with any questions.
